Stone Sector is the report on the international trade of stone products prepared annually by the Internazionale Marmi e Macchine Carrara research office.

The report has been published for over thirty years now. It comes out at the end of May and contains data on the international production of natural stone for ornamental use and trade between countries broken down by material and the level of processing. Particular attention is paid to Italian imports-exports to and from the rest of the world in order to understand the competitive position of our country and identify new investment opportunities for those working in the stone industry.

Since 2017, Stone Sector has been enriched with two sections:

FOCUS ON HIGH GROWING COUNTRIES: Country charts on countries that recorded a significant increase in demand for stone materials over the last two years

STONE SECTOR INNOVATION: Charts of the most innovative solutions introduced in the market of natural stone in the last year

The report is biligual Italian/English
